ORIGINAL BILL.

AN ACT to create and establish an Industrial Institute in the State of Mississippi, and a College for the education of white girls in the arts and sciences.

SECTION 1. *Be it enacted by the Legislature of the State of Mississippi,* That an Industrial Institute and College is hereby established, for the education of white girls in the arts and sciences, which shall be known as the Missisippi Industrial Institute and College for the Education of White Girls of the State of Mississippi in the Arts and Sciences, and shall be located and organized as hereinafter provided.

SECTION 2. Be it further enacted, That the Governor of the State shall nominate and appoint, by and with the advice and consent of the Senate, one person from each of the congressional districts of the State, and two from the State at large, to be Trustees, and to serve as such for six years. Immediately after they shall be assembled, in consequence of their first appointment, they shall be divided equally into three classes. The term of the first class shall expire two years from the date of their appointment; the second class four years from the date of their appointment; and the third class at the expiration of six years from the date of their appointment; so that one-third may be chosen every second year. If vacancies happen by resignation, or otherwise, the Governor may make temporary appointments, until the next meeting of the Legislature. The Governor shall be *ex-officio* a member of said board of trustees, and shall act as president thereof in all of their meetings, when present, but, in his absence they may choose a president *pro tem.* Five of the trustees of the board shall be a quorum for the transaction of business.

SEC. 3. Be it further enacted, That the Secretary of State shall furnish a certificate to each trustee within ten days after his appointment, notifying him that he has been so appointed; and, if any trustee fail for the space of thirty days to inform the Governor of his acceptance, then his appointment shall be void, and his place shall be filled, as heretofore provided in cases of vacancy.

SEC. 4. Be it further enacted, That the Board of Trustees of said Institute and College, and their successors in office, be and the same are hereby declared to be a body politic and corporate, and shall have a common seal, shall sue and be sued, contract and be contracted with, and may own, purchase, sell and convey property, both real, personal and mixed.

SEC. 5. Be it further enacted, That the Governor shall, as *ex-officio* President, convene the Board of Trustees of said Institute and College, to consider any business connected with the same whenever he shall deem it expedient to do so; that the said trustees shall elect a secretary of the board, whose duty it shall be to

record, in a well bound book, all of the proceedings had by said board, and shall be allowed such compensation for his services as the board may deem proper. That the State Treasurer shall be *ex-officio* Treasurer of said Board of Trustees, whose duty it shall be to secure and safely keep all moneys belonging to the Mississippi Industrial Institute and College for the education of white girls of the State of Mississippi in the arts and sciences, and to disburse the same under the orders of the Board of Trustees.

SEC. 6. Be it further enacted, That the said Board of Trustees shall possess all the power necessary and proper for the accomplishment of the trust reposed in them, viz: the establishment and maintenance of a first-class Industrial Institute and College for the education of white girls of the State of Mississippi, in the arts and sciences, at which such girls may acquire a thorough normal school education, together with a knowledge of kindergarten instruction, also a knowledge of telegraphy, stenography and photography; also a knowledge of drawing, painting, designing, and engraving in their industrial application; also a knowledge of fancy, practical and general needle-work; and, also, a knowledge of book-keeping, with such other practical industries as, from time to time, to them may be suggested by experience, or tend to promote the general object of said Institute and College, to wit: fitting and preparing such girls for the practical industries of the age.

SEC. 7. Be it further enacted, That the Board of Trustees shall appoint a president and professors of the said Institute and College, and such other officers as they may think proper, to put the same in successful operation, and shall make such laws, rules and regulations for the government of said officers as they may deem advisable. They shall regulate the rates of tuition, together with the course of discipline necessary to enforce the faithful discharge of the duties of all officers, professors and students. They shall divide the course of instruction into departments, so as to secure a thorough education, and the best possible instruction in all of said industrial studies, selecting careful and efficient professors in each department; and shall adopt all such by-laws and regulations as they may deem necessary to carry out all the purposes and objects of said institution.

SEC. 8. Be it further enacted, That the trustees appointed, as hereinbefore provided, shall receive as compensation for their services their actual expenses incurred in attending any of the meetings of the Board of Trustees, payable out of any funds belonging to said Institution and College.

SEC. 9. Be it further enacted That, as it is the object of this act to establish said Institute and College, with as small an outlay annually, as is consistent with the object to be attained, and the revenue of the State, the said trustees shall prepare a general plan of said Institute and College, together with the necessary departments, dormitories and outhouses. Also an estimate of the cost of necessary school furniture, including cost of buildings and department appliances; and shall build and establish in any one year, only such houses, dormitories, and departments, as they may deem for the best interest of said institution, and of greatest practical importance.

SEC. 10. Be it further enacted, That the said board of trustees shall organize under the provisions of this act, as soon as practicable after their appointment; and they shall, immediately after their organization, proceed to procure by purchase, or donation, a site for the location of the said Mississippi Industrial Institute and College for the education of white girls of the State of Mississippi in the arts and sciences. In the selection of said site the trustees shall look to the convenience

of the people of every section of the State; also the facilities for going to and from said institution, the advantages and disadvantages of the different sites proposed, and shall locate the same at the place where most advantages are offered; *provided*, the location shall be at a place known to be healthy, and free from annual epidemics; and *provided*, that said trustees shall give notice for sixty days in three newspapers published in this state, that they will receive proposals, and examine sites before locating said institution.

SEC. 11. Be it further enacted, That, so soon as said institution is prepared to receive pupils or students in three or more departments of the industrial studies hereinbefore enumerated, the said trustees shall apportion to each county its quota of scholars, on the basis of the educable white girls in the State and several counties; and the several superintendents of education in the counties shall advertise it in some newspaper published in such county; and after the expiration of two weeks from such advertisement, shall, by, and with the approval of the board of supervisors of such county, commission such number of white girls to said institution as such county is entitled to. The presentation of such certificate, under the seal of the board of supervisors, to the president of said institution, shall entitle the persons, so commissioned, to admission into said institute, with all its privileges, for the course of studies selected.

SEC. 12. Be it further enacted, That the sum of twenty thousand dollars, for the year eighteen hundred and eighty-four, and the sum of twenty thousand dollars for the year eighteen hundred and eighty-five, be and the same is hereby appropriated, for all the purposes of this act, or so much thereof, as may be necessary, out of any funds in the State Treasury, not otherwise appropriated. The same shall be drawn from the treasury by the board of trustees, on vouchers audited by the board and approved by the Governor, and filed in the Auditor's office. Such vouchers shall contain a clear and full statement of the purpose for which they are given. Upon the filing of such vouchers, the Auditor of Public Accounts shall draw his warrant on the State Treasurer for the same, from time to time, as funds may be needed, to pay the officers and professors of said college or institute, or for any other necessary and proper object, connected with building, buying site, and properly equipping said institution, with everything needed in each department.

SEC. 13 Be it further enacted, That said board of trustees shall determine and fix the salaries of each officer, employee and professor in said institute; *provided*, the salaries of the professors, in any one department, shall not exceed those now allowed to professors in the Agricultural and Mechanical College.

SEC. 14. Be it further enacted, That this act take effect and be in full force from and after its passage.

Approved, March 12th, 1884.

ACT OF FEBRUARY, 1890.

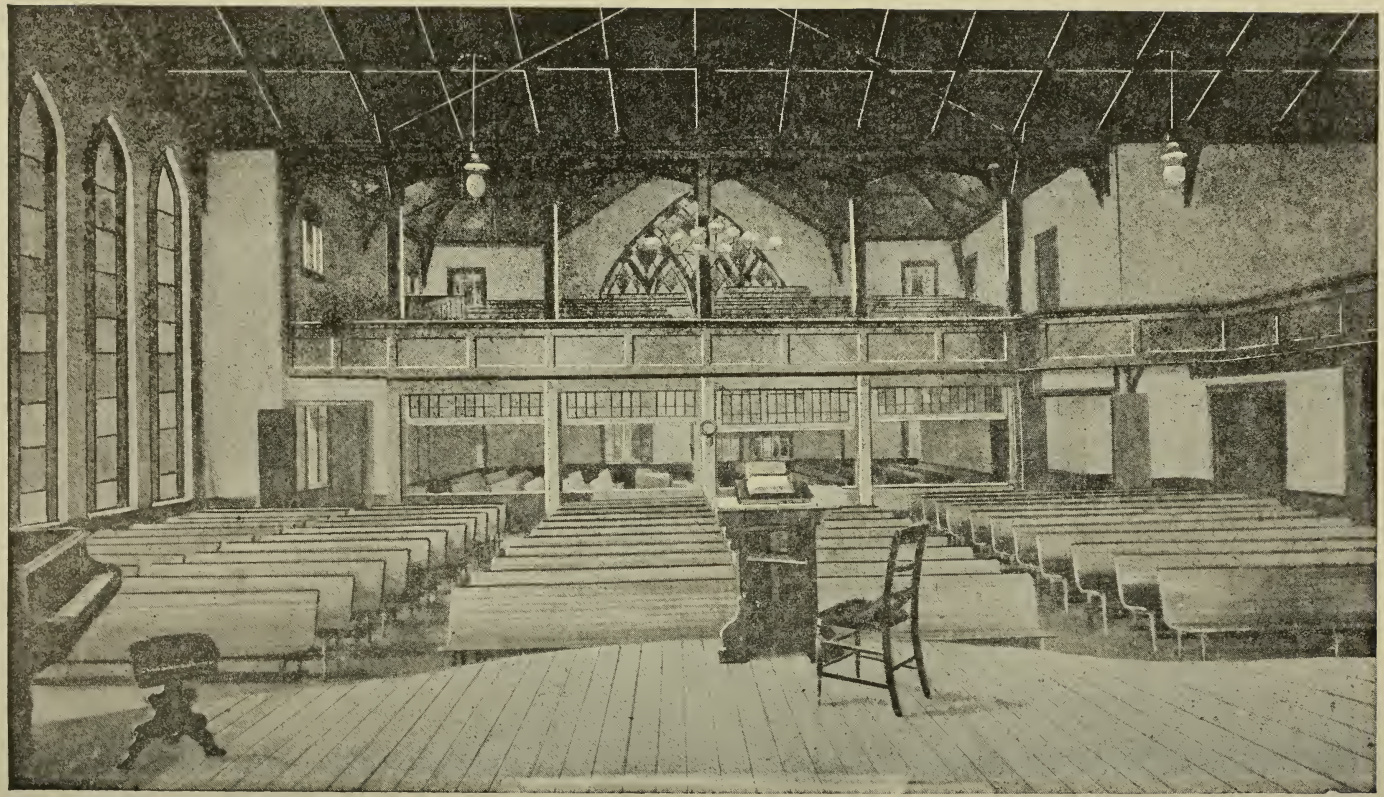

SECTION 1. *Be it enacted by the Legislature of the State of Mississippi*, That the Board of Trustees of the Industrial Institute and College for white girls may provide, under proper rules and regulations, for conferring degrees, awarding diplomas and granting certificates as rewards and honors for learning or skill to the pupils of said institution and to such girls as have already attended the same; *Provided*, That no honorary degree shall ever be granted in the name of said Institute and College.

☞ SEC. 2. *That any girl who may have been or may be appointed, under existing laws, to said Institute and College shall be permitted to finish the course upon which she has entered or may, but in* NO CASE *shall free tuition be allowed to any pupil for a longer term than four years.* ☜

SEC. 3. The act entitled "An act to apportion the students at the A. & M. College and the Industrial Institute and College to the several counties of this State, and for other purposes, approved March 5th, 1888," shall be and the same *is hereby repealed*, so that the students of said colleges shall be apportioned and the appointments be made according to the acts creating said colleges respectively, (*i. e.*, March, 1884 for I. I. & C.)

SEC. 4. If the pupils apportioned to any county *shall fail and neglect* to enter the college within four weeks after the beginning of the first session after receiving their appointment under existing laws, then it shall be lawful for the Superintendents of Education of the county in which such pupil or pupils reside, to appoint others from such county in the place of such pupil failing to enter said college. And if the pupil or pupils last appointed shall fail to enter said college within three weeks after her or their appointment, then the places of such pupils may be filled by other girls appointed from other counties already having their quota for the term ending in the June next following, *in the order of their application*, who shall have the same rights, privileges and benefits for the time being as would have been enjoyed by those whose places are so filled; *Provided*, that if the failure and neglect aforesaid shall be due to the illness of the pupil in default, or any member of her family, or by reason of any epidemic then prevailing or threatened, she shall be permitted to enter and take her place in said college whenever such cause is removed. And it shall be the duty of the Superintendent of Education of the counties where pupils are detained by any of the last mentioned causes to so *notify the president of said College.*

SEC. 5. That this act shall take effect from and after its passage.

Young, Mrs. C. C.....Lowndes.

ADMISSION OF STUDENTS.

(Extract from the Act March 12, 1884.)

"The Trustees (*i. e.*, of the Industrial Institute and College) shall apportion to each county its quota of scholars, on the basis of the educable white girls in the State and several counties; and the several Superintendents of Education in the counties shall advertise it in some news-paper published in such county, and after expiration of two weeks from such advertisement, shall, by and with the approval of the Board of Supervisors of such county, commission such number of white girls to said institute as such county is entitled to. The presentation of such certificate, under the seal of the Board of Supervisors, to the President of said institution, shall entitle the persons so commissioned, to admission into said Institute, with all its privileges, for the course of studies selected."

The following is the apportionment according to law:

First: Of scholarships with privilege of board in Dormitory.

APPORTIONMENT OF SCHOLARSHIPS TO THE SEVERAL COUNTIES OF THE STATE ACCORDING TO LAW.

Adams,	2	Itawamba,	4	Perry,	1
Alcorn,	3	Jackson,	3	Pike,	4
Amite,	2	Jasper,	2	Pontotoc,	4
Attala,	5	Jefferson,	2	Prentiss,	4
Benton,	2	Jones,	4	Quitman,	1
Bolivar	1	Kemper,	3	Rankin,	3
Calhoun,	6	Lafayette,	4	Scott,	3
Carroll,	4	Lauderdale,	5	Sharkey,	1
Chickasaw,	4	Lawrence,	2	Simpson,	2
Choctaw,	2	Lee,	5	Smith,	3
Claiborne,	1	Leake,	3	Sunflower,	1
Clarke,	3	Leflore,	1	Tallahatchie,	2
Clay,	2	Lincoln,	3	Tate,	3
Coahoma,	1	Lowndes,	4	Tippah,	4
Copiah,	6	Madison,	2	Tishomingo,	4
Covington,	1	Marion,	2	Tunica,	1
DeSoto,	3	Marshall,	4	Union,	3
Franklin,	3	Monroe,	6	Warren,	2
Greene,	1	Montgomery,	2	Washington,	1
Grenada,	1	Neshoba,	2	Wayne,	1
Hancock,	2	Newton,	4	Webster,	3
Harrison,	3	Noxubee,	2	Wilkinson,	1
Hinds,	4	Oktibbeha,	2	Winston,	2
Holmes,	2	Panola,	6	Yalobusha,	3
Issaquena,	1	Pearl River,	1	Yazoo,	4

Second: Of scholarships without the privilege of board in the Dormitory.

The number of these is the same to each county as the preceeding; pupils holding these appointments will make arrangements for board in private families.

GENERAL INSTRUCTIONS TO APPLICANTS.

1. Applicants for admission must be at least fifteen years of age, in good health, and must furnish certificate of good moral character.

2. All applicants will be required to sustain a satisfactory examination in Grammar School studies, to-wit: Reading, (a selection) Writing, (estimated from manuscripts) Spelling, Arithmetic, English Grammar, Geography, History of the United States.

County Superintendents of Education are authorized to conduct examinations in the foregoing studies for admission, and to furnish certificates to applicants who live in their respective counties.

No other person is authorized to conduct examinations of applicants before they come to College. It is hoped that county superintendents will conduct examinations of applicants *with care* and *insist* that they be thoroughly prepared on the foregoing subjects.

The certificate of a Superintendent of Education, approved by the Board of Supervisors, entitles a student to admission to the College *at the beginning of the session.*

At all other times, and when the student wishes to enter an advanced class, she must be examined by the President or the Faculty of the College.

Those who wish to enter the College should pursue the following course:

1. Apply to their County Superintendent of Education for appointment. If he can appoint them, their purpose is accomplished.

2. If there are more applicants in any county than the Superintendent of Education is authorized to appoint, applications may be made to the President of the College, who is authorized to make appointments to fill vacancies which may occur by reason of any county's failure to fill its quota of students, but no county can be *deprived* of its privilege to send its quota of students with free scholarships.

If the county superintendent does not examine the applicants, they can be examined on arrival at the College.

We earnestly request the County Superintendents to *act as promptly* as practicable, to make their appointments and report to the President their action—between Aug. 1st and Sept. 10th, each year.

Their report to the President of the College should give the name of each person appointed, *naming those intended for the dormitory*, the number of the certificate issued each, and if there are more applicants than the apportionment allows him to appoint, he should give the names of such unappointed applicants with recommendation for appointment by the President, if the Superintendent regards the said applicants worthy of his endorsement. If there should be no applicant from his county, or if the number is less than the apportionment to his county, he should state the fact in order that worthy applicants from other parts of the State may avail themselves of the vacancies through appointment by the President of the College.

A large number of County Superintendents attend to these duties with reasonable promptness. If all would do so it would relieve us of much embarrassment which has ensued upon the failure of some to report as requested and as required by law. The charter leaves the selection of representatives from each county to county officers. The conception of the law is just and wise, and if these county officials will faithfully execute it, each of the counties of the State will put into the College such students as her own officers think worthy of the position.

It is highly important for County Superintendents to assure themselves that their appointments do comply FULLY with the stated requirements as to age, character, healthiness and preparation.

A few students have been sent each year without the preparation required. It has been the policy of the College to do the best thing possible for those sent; but it is clearly not the province of the institution to teach students the primary studies. A student who does not know the multiplication table and is ignorant of simple division ought to be in a primary school and not in the Preparatory Department of a College.

It is not just to expect a College to do its own proper work and in addition thereto Preparatory work and Primary work.

Again, a girl who is in poor health is not a suitable person for an industrial school; she cannot do the work and study that are necessary and her frequent sickness is a serious hindrance to her roommate. We appreciate the carefulness exercised by most of the Superintendents of Education in these matters and hope these suggestions will call the attention of those, who have seemed indifferent to the "conditions," to the duty of carefully complying with them.

The Superintendents of Education of those counties not now represented in the I. I & C. should call the attention of the public to this matter, as required by law, and use every effort to send their full quota to this Institution. The State grants FREE tuition to 400 young women and each county is entitled to its full share.

NOTICE.—Orders for reduced rates to the I. I. & C. may be obtained by any appointee in the following manner:

1st. Write to Capt. Jno. A Neilson, Proctor of I. I. & C.
2nd. State where you wish your orders sent, and to whom.
3rd. State the name of the town or Station at which you take the train.
4th. State the route you desire to take.
5th. State when you are to leave.
6th. Give your name *in full.*
7th. Apply for certificates for Reduced Rates before September 1st of each year.
8th. Roads giving reduced rates are Mobile & Ohio; Illinois Central; Natchez, Jackson & Columbus; Georgia Pacific; Vicksburg & Meridian; New Orleans & North Eastern; Louisville, New Orleans & Texas.

SOUTH-EAST VIEW OF COLLEGE.

REGULATIONS
Governing Entrance to Dormitory.

1.—Former students in good standing and suitable health have precedence.
2.—New appointees, with certificates from County Superintendent of Education, stand next in order of appointment.
3.—Appointees by President, to fill vacancies in counties not represented in full, are next.
4.—No "Special" student can have Dormitory privileges so long as "Regular" students desiring the same are unsupplied.

STUDENTS FROM OTHER STATES

cannot be granted Dormitory Privileges; but, by paying a tuition fee of $3 per month, they may be admitted into the College with the same advantages offered Mississippi students boarding out.

Examination for Classification.

A student holding a certificate of scholarship from her County Superintendent may be classed in the *Business Course, Section 1* without further examination.

Candidates for the *Freshman Class* will be examined by the College Faculty in the following subjects:

I. MATHEMATICS.

a. Arithmetic.—Fundamental Rules, Fractions (common and decimal), Denominate Numbers, Percentage and its applications.

b. Algebra.—Through equations of the first degree, factoring equivalent to that given in Wentworth's Complete Algebra.

II. ENGLISH.

The candidate will be asked to write a few pages upon some assigned subject, or from dictation. This exercise will be examined with reference to Grammar, Spelling, Paragraphing, Punctuation, and the use of Capitals. The examination will also cover the principles of analysis and the leading irregularities incident to the English language.

III. LATIN.

The student will be required to show a thorough knowledge of the declensions and conjugations. She must be able to apply rules for the oblique cases, and for noun, adjective and adverb clauses. Must be familiar with the more common idioms, as the ablative absolute, and the use of the gerund and gerundive in expressing purpose.

For the *Higher College Classes* candidates must pass satisfactorily an examination in all the subjects pursued by the lower class or classes.

Course of Study.

BUSINESS COURSE, 3 YEARS.

First Section.

1.	Mathematics: Arithmetic,	5—5
2.	English: Grammar,	5—5
3.	Freehand Drawing,	5—5
4.	Penmanship.	2—2

Second Section.

1.	Mathematics: Algebra,	4—4
2.	English: Grammar,	4—4
3.	Latin: Beginning,	4—4
4.	U. S. History and Map Drawing, Physiology.	4 —4

Third Section.

1.	Mathematics: Algebra,	4—4
2.	English: Rhetoric,	4—4
3.	Latin: Cæsar,	5—5
4.	Natural History, Botany,	4 —4

NORMAL COURSE, 3 YEARS.

Beginning Class.

1.	Mathematics: Algebra,	4—4
2.	English: Grammar,	4—4
3.	Freehand Drawing,	4—4
4.	U. S. History and Map Drawing, Physiology,	4 —4
5.	History of Pedagogy.	1—1

Middle Class.

1.	Mathematics: Algebra,	4—4
2.	English: Rhetoric,	4—4
3.	Science of Education,	5—5
4.	Natural Philosophy, Botany.	4 —4

Advanced Class

1.	Mathematics: Methods,	4—4
2.	English: Methods,	3—3
3.	Art of Teaching,	3—3
4.	Psychology,	3—3
5.	English History.	3—3

NOTE.—The first figures refer to the number of different subjects for a given year; the two remaining columns refer to the first and to the second terms respectively, and indicate the number of hours required weekly in each branch for recitation.

The 3rd Section of the Business Course and the Freshman year of the College Course are identical. Choice of Modern Languages (French and German,) is given and but one is required.

N. B.—This course may be slightly modified during the coming session.

Course of Study.

COLLEGE COURSE, 4 YEARS.

Freshman Year.	1. Mathematics: Algebra,	4—4
	2. English: Rhetoric,	4—4
	3. Latin: Cæsar,	5—5
	4. Natural History,	4
	Botany.	—4
Sophomore Year.	1. Mathematics,	4—4
	2. English,	3—3
	3. Latin,	3—3
	4. Modern Languages,	3—3
	5. English History,	2—2
	6. Physics.	2—2
Junior Year.	1. Mathematics,	3—3
	2. English,	3—3
	3. Latin,	3—3
	4. Modern Languages,	3—3
	5. Chemistry,	3—3
	6. General History,	3
	Psychology and Logic.	—3
Senior Year.	1. Mathematics,	2—2
	2. English,	3—3
	3. Metaphysics,	5
	Ethics,	—5
	4. Modern Languages,	3—3
	5. Political Economy,	3
	History of Civilization,	—3
	6. Chemistry.	4—4

General Remarks on the Course of Study.

It will be seen from the foregoing that there are three *prescribed courses* of study. When a student wishes training in general education she will be required to take one of these *prescribed courses* and will be classed by the Faculty according to her advancement. In view of the many kinds of instruction and work to be done each day and the number of classes which must necessarily be formed, it is apparent that there must be an established schedule of exercises and that several classes must be reciting simultaneously. Therefore the selection of studies irregularly and capriciously is not allowed. Experience teaches that a regular course is best for the student, and this the student herself soon learns to appreciate.

Any student or her parents may select her Industrial Art; but no student will be allowed to take Book-keeping or Phonography until she shall have sustained a satisfactory examination in Arithmetic and English of the first Section of the Business Course, or its equivalent.

All students are required to take one Industrial Art, whether they pursue the Business Course or the College Course of study.

Each student is required at the end of each Term to stand the Examinations prescribed in her Course of Study. Students will not be permitted to discontinue studies in order to avoid examinations.

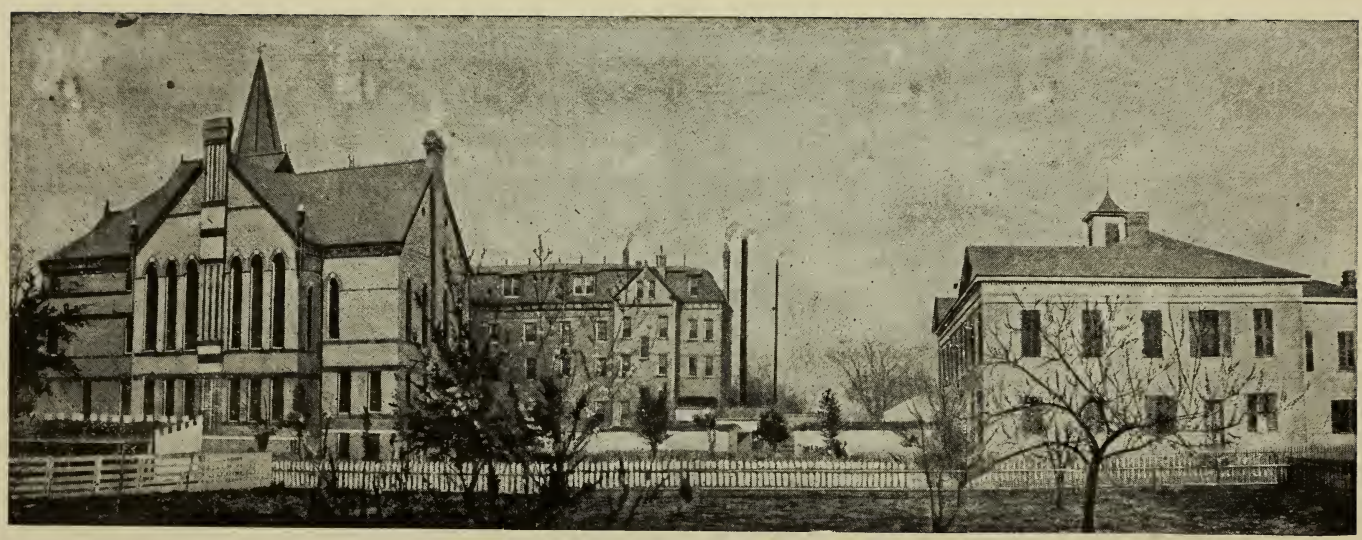

Earnest, diligent, faithful application to duty is expected of every pupil.

The object is to secure to pupils accurate and adequate preparation for usefulness in life. Those who are unwilling to apply themselves with determination to overcome difficulties and to develop their faculties are advised not to enter this College. The great advantages it offers can be made available only to those who are intensely in earnest and who intend to perform a life-work that is worthy of them.

A high standard of scholarship will be maintained; thoroughness and accuracy will be the aim in every department.

All class and examination grades are estimated on the basis of 100 as maximum. In order to determine whether the student may advance from one class to another, her standing in any half year's course is computed thus: her marks on the daily recitations are averaged for the session; she is required to sustain an examination on the course. The term mark is added to double the examination grade, and the sum divided by three. If the quotient is 75 or more, the pupil advances with her class.

The College is designed to fit woman for particular spheres and lines of work, to open up to her new avenues to employment and usefulness. It is also intended to improve her intellect by the best methods which philosophy and experience suggest, to afford the broadest and highest culture, and to preserve and improve every characteristic of refined womanhood.

SOUTH-WEST VIEW OF COLLEGE.

TEXT-BOOKS USED IN THE INDUSTRIAL INSTITUTE & COLLEGE.

Mathematics.

Robinson's Progressive Intellectual Arithmetic.
Wentworth & Hill's Practical Arithmetic.
" Complete Algebra.
" New Plane and Solid Geometry.
" Plane and Spherical Trigonometry.
" Analytic Geometry.
Taylor's Calculus.

English.

Knox-Heath's Parts of Speech and How to Use Them.
Whitney's Essentials.
Kellogg's Rhetoric.
Sweet's Anglo-Saxon Primer.
Genung's Rhetoric.
Carpenter's XIV Century English.
Taine's English Literature.
Lounsbury's History of the English Language.

History, Metaphysics and Logic.

Barnes' U. S. History.
Green's History of English People.
Myers' General History.
Jevons-Hill's Elements of Logic.
Hamilton's Metaphysics.
Wayland-Chapin's Political Economy.
Calderwood's Moral Science.
Guizot's History of Civilization.

Book-keeping.

Williams & Rogers' Book-keeping.
Packard's New Commercial Arithmetic.
Clark's Commercial Law.

Latin.

Collar & Daniell's Beginner's Latin Book.
Allen & Greenough's Latin Grammar.
Allen & Greenough's Caesar.
Allen & Greenough's Cicero.
Greenough's Virgil.
Greenough's Horace.
Collar's Compostion.
Vincent-Joy's Outline History of Rome.

Chemistry, Physics, and Natural History.

Hutchinson's Physiology.
Orton's Zoology.
Youman's Botany.
Shepherd's Inorganic Chemistry.
Remsen's Organic Chemistry.
Gage's Physics.

MODERN LANGUAGES.

FRENCH.

Sauveur's Les Petites Causeries.
Sauveur's La Petite Grammaire.
La Combe's Histoire du Peuple Francais.
Fleury's Literature Francaise.
Students Classic French Plays.

GERMAN.

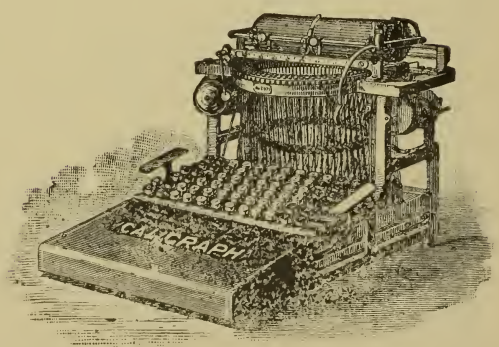

Worman's First German Book.
Wm. Bernhardt's Sprach und Lesebuch.
Klemm's Geschichte der Deutschen Litteratur.
Schiller's Wilhelm Tell.
Fouque's Undine.
Goethe's Faust.

PHONOGRAPHY AND TYPE-WRITING.

Graham's Hand-Book of Standard Phonograpy.
Graham's First Phonographic Reader
Graham's Second Phonographic Reader.
Barnes' Caligraph Instructor.

NORMAL DEPARTMENT.

Hailman's History of Pedagogy.
Palmer's Science of Education
Joseph Payne's Lectures on Teaching.
Hopkins' Outline Study of Man.

The American Caligraph, No. 2, is the only type-writing instrument now in the College.

Expenses.

Board.

1. Board in the Dormitory is furnished to pupils at actual cost A good table is kept, the food is abundant, of sufficient variety well cooked and nicely served. Supplies are bought at the lowest wholesale cash prices, and meat, milk, butter etc., are obtained by contracts at prices secured under competitive bids. The average cost of board, including furnished room, fuel, light, washing, water etc., to Dormitory pupils is less than ten dollars per month.

2. Board with private families in the city costs the pupil $12.50, per month, exclusive of washing.

Tuition.

In the Collegiate, Normal and Industrial Studies, tuition is free

In the Departments of Music the charges are as follows:

Music on Piano or Organ, per month	$4.50.
Voice culture, per month	5.00.
Solfege, per month	.50.
Use of instrument for practice, one hour per day, per month	.75.

ON ENTERING EACH SESSION ALL STUDENTS PAY A MATRICULATION FEE OF FIVE DOLLARS

Students in Analytical Chemistry pay for materials consumed and apparatus broken.

Every student must deposit for board at the beginning of the session at least $30.00, and must always keep the amount of one month's board to her credit. No pupil is allowed to fall behind in paying board. When we discover that a pupil is about to get in debt to the boarding department, she will be required to withdraw. This is necessary to protect those who pay.

All charges for tuition must be paid in advance.

Remittances.

should be made by bank checks, express, post office money-orders, or registered letters. The last method is the least desirable of all. When remittance is made by post office money-order, a letter should always state to whom the order is payable. The cost of remitting must ALWAYS be paid by the sender.

Pupils will not be allowed to draw on their deposit for board in order to meet other expenses.

Books, Stationery, &c.

Can be procured in the College building.

Articles to be Furnished by Students.

Each student must furnish one pair of sheets, one pair of pillow cases, one pair of blankets, one bed spread, six towels, and two clothes-bags.

All clothing must be plainly marked with the owners's name.

Uniform.

FULL DRESS UNIFORM FOR SPRING AND FALL.

Navy blue satteen, made and trimmed according to model, i. e., front width of skirt slightly gored and held a little full to the waist band; the side widths laid in three broad plaits turning forward, the edge of plaits overtopping each other, the first one over the seam of front width; the back width gathered to band, three rows of French gathers $\frac{3}{4}$ of an inch apart; hem, $3\frac{1}{2}$ inches in depth. Basque plain, slightly pointed front and back, short on hips; coat sleeves with slight fullness on top; plain standing collar; buttons, smoked pearl, size of silver half dime.

Hat, navy blue straw sailor, trimmed with band of navy blue satin ribbon, with flat bow on left side, and should be purchased in Columbus after arrival.

Gloves, tan colored.

White tourist's ruching, single fold, with white cuffs, and no ribbon or veils except navy blue shall be worn.

For spring this uniform shall be ready by the first of May.

For fall, as soon as possible after entering College. All pupils must conform to model.

FULL DRESS UNIFORM FOR WINTER.

The winter uniform shall be of dark navy blue cashmere. This shall be made according to model; see above, "Full Dress Uniform for Spring and Fall." The skirt and basque same in style as satteen for spring and fall, but with plain flat steel buttons 22 lines.

Hat shall be same as for spring and fall.

White standing collars, white cuffs, navy blue ribbons and veils, and tan colored gloves.

All pupils must have the jackets to their winter suits made first. The winter dresses must be ready by the 15th of November.

Pupils wearing mourning will be required to have dress made according to model; black hat, uniform style: black jacket, uniform style.

EVERY DAY UNIFORM.

Dress of any material, but navy blue in color, and trimmed with material of same; smoke pearl buttons used; navy blue wrap, either cloak, shawl, cape or flannel scarf; navy blue ribbons and veils; navy blue sun bonnet trimmed with same material, or prescribed uniform hat; white tourist's ruching, single fold and white cuffs; tan colored gloves shall be worn. Aprons, if worn, shall be white only.

This uniform shall be worn by all students from time of entering; no exceptions shall be made.

Students shall not bring with them any dress except the uniform dress and fatigue dress. The fatigue suit shall be navy blue, whether dress or wrapper.

Each young lady on entering the Dormitory shall at once provide herself with a large apron of blue checks.

Pupils shall not be permitted during the session to purchase and make up, or to have made up, any other dresses than these.

PHYSICAL CULTURE UNIFORM,

This consists of a uniform blouse and a skirt.

The Blouse: this is made from striped outing cloth of alternate stripes of deep

STYLE OF FULL DRESS AND PHYSICAL CULTURE UNIFORM.

orange and black; the orange is six eights of an inch wide and the black is $\frac{5}{8}$ of an inch in width.

It is plain, loose fitting, and being cut ten (10) inches below the waist line, gives a fall of five (5) inches when gathered to the waist.

The collar is a three (3) inch band, turned over, thus forming a plain collar about three (3) inches wide.

The sleeve is a plain, moderately full shirt sleeve, with a cuff five (5) inches deep.

The buttons are black bullet buttons, five sixteenths of an inch in diameter, i. e. $\frac{1}{2}$ width of the black stripe in outing cloth. Nine of these are placed (2) inches apart down the front of blouse.

The Skirt: this is made to clear the floor by seven (7) inches; is also made plain, and full, and finished with a hem six (6) inches deep.

Work of Students.

This work is of two kinds—required and voluntary.

Required Work.

The occupants of the rooms are required to do all the work necessary to keep them in nice order. The work in the dining room, such as spreading the cloths, putting on the meals, placing the chairs, washing plates and dishes, waiting on the table, is required of the pupils. For this work regular details are made, and each one in turn performs her part.

The time spent by the students in this way, under systematic planning and skillful supervision, disposes of this household work promptly and well. It not only saves the hire of servants, thereby effecting economy, but the student sees what can be accomplished by system, co-operation and prompt activity, and she acquires habits that will fit her for bearing with greater ease and success, her part in the home work.

Voluntary Work.

Girls have the privilege of doing a large part of the work in the kitchen, in keeping the rooms and furniture in a cleanly condition and neat order. They sweep the halls, recitation rooms, Chapel, music rooms, light the gas in the halls and dining room, and do much of the light work in the Laundry. Students also may take in work in the dress-making department.

For this voluntary work they are paid at the rate of six to ten cents per hour (see Pay Roll).

There is no disposition in the Institution, by word or action, to disparage those who work to aid in paying their expenses. On the contrary, the President and Faculty commend all the work that is offered to students as honorable, and praise those who perform it well. The heavy work in the kitchen and laundry is performed by hired laborers; the machinery in the laundry is operated by an engineer.

A few girls have paid their whole expenses by work. Many have earned $4 per month and upwards.

Pay for voluntary work.

Students receive pay for voluntary work as follows:

Sweeping	6 cents per hour.
Dining room service	6 " " "
Laundry	6 " " "
Additional work in President's and in Proctor's offices	10 " " "
Librarian	$5. 00 per month
Postmistress	3. 00 " "

General Regulations.

PROMPTNESS IN ENTERING.

It is of the highest importance that pupils should be present at the opening of the session and remain until the close.

By order of the Board of Trustees, all pupils who remain absent from the College for ten days from the opening of the session shall, by that absence, forfeit their places; provided, that for good and timely excuse rendered in writing, the President of the College shall have authority to extend the time for which the place may be held for such absent pupil; but in no case shall this time exceed thirty days.

THE DORMITORY WILL BE OPENED FOR BOARDERS ON TUESDAY THE 16th OF SEPTEMBER, AT 12 M.

PUPILS ARRIVING BEFORE THAT TIME WILL BE CHARGED ONE DOLLAR PER DAY.

REGULARITY OF DAILY ATTENDANCE IS VERY IMPORTANT.

The absence of a few days is a serious loss. The session is too short to be broken into by visits home. Pupils who enter without the expectation of such visits remain contented through the session and make good progress, while those whose studies are so interrupted must fall behind their classes; and, as a consequence they nearly always become discontented and suffer irreparable loss. Parents are earnestly solicited to assist the officers of the College in maintaining the rules and regulations in regard to leaves of absence.

Pupils in the Industrial Departments may have authority to withdraw at any time when evidence is furnished of having finished, to the satisfaction of her instructor, the course upon which she entered.

Pupils are not permitted to receive visits from young gentlemen, nor to spend the night out of the Institute. We request the parents not to ask for any departure from this rule. Communications from parents or guardians with reference to visiting or receiving visits by the pupils, should be made direct to the *President and not through the medium of the pupil.*

It is particularly desirable that parents should remember that while their daughters are in College, their attention and efforts should be concentrated on their studies and industries, and that this cannot be done if they indulge in making and receiving visits.

To open the College parlor to persons calling on pupils during all the days of the week, would impose onerous duties on several officers, and seriously interrupt the studies of the girls.

Visitors are not admitted to the private apartment of students. Calls are not allowed to interfere with College duties.

Pupils are not permitted to make accounts at the stores. All unnecessary expenditures are discouraged. But little "pocket money" is needed. Pupils need not write for articles of dress which are expensive and unnecessary. Such articles cannot be worn.

If parents are called on to incur any expense not anticipated, it is best to confer with the Matron or President.

Boxes of *provisions* need not be sent to pupils. Such boxes are fruitful sources of excess, sickness and loss of time

Borrowing text-books, clothing, jewelry and other articles, is positively forbidden.

Pupils are required to spend a part of every Saturday in regulating their wardrobes, repairing clothing, etc.

The health of the student is ever regarded as a matter of the first importance. Every possible care will be taken to secure this. All communications on this subject should be addressed to the Matron.

When parents or guardians find it necessary to send a mesenger to communicate with their daughters or wards, or to take them home, they are most respectfully requested to send a letter of introduction and explanation to the President.

Students boarding out in town are under the domestic and social care of the family in which they board—they are in all other matters subject to the same laws boarders in the Dormitory.

All students are required to attend the church of their choice once every Sunday and to attend the College Sunday School.

THE GOVERNMENT

is parental; the object is to strengthen the higher motives and develop character. Every pupil will be expected to conform to the laws of courtesy, and kindness in her dealings with officers and associate pupils.

The government is specially lodged in the hands of the President; each member of the Faculty and each officer is in this matter his assistant, and will be expected to discharge such duties as the President may require.

If cases of sickness should arise, the pupils in the dormitory will be carefully attended by an experienced matron.

The effort will be to secure for them in sickness and in health the comforts of a well-ordered home.

Pupils will be expected to take pleasant invigorating exercise daily in order to preserve health and vigor.

The rules and regulations are such as experience has taught to be necessary to properly accomplish the object of such an Institution, and for violation of rules demerits and other penalties are attached. A faithful record of all these is kept by members of the Faculty, and these are consolidated and embodied in the reports.

It is the earnest desire and aim of the President and Faculty to induce students to act from a high sense of honor and propriety, and to learn to govern themselves, to do right from the love of right.

CORRESPONDENCE.

All letters and remittances for the student's expenses in the College should be addressed to the Proctor.

All drafts, post-office money orders, etc., should be payable to him and not to the President.

Private confidential letters respecting the health of students, should be addressed to the Matron.

All other official correspondence should be addressed to the President.

Letters to students who board in the College, should be marked, "Care of I. I. & C. Letters to a pupil in a private family should be addressed to the care of such family.

RECESS.

A recess of one day will be given at Christmas. Parents are advised not to take their daughters home Christmas, unless they live very near, and if they should take them home they should have them in place when the recess ends. No deduction from accounts for board will be made when students leave the College on such occasions or for such trips of pleasure.

NOTES OF INFORMATION.

SCHOLARSHIP REPORTS.

Reports to parents of students' progress are made every two months, as follows;

1st. Dec. 1st to 10th.
2nd. Feb'y. 1st to 10th.
3rd. April 1st to 10th.
4th. June 10th to 20th.

FINANCIAL REPORTS.

Financial reports are sent to the patrons between the 1st and 10th of each school month from October to June inclusive.

CERTIFICATES OF APPOINTMENT.

Certificates appointment will not be received if presented later than one year from date of issue.

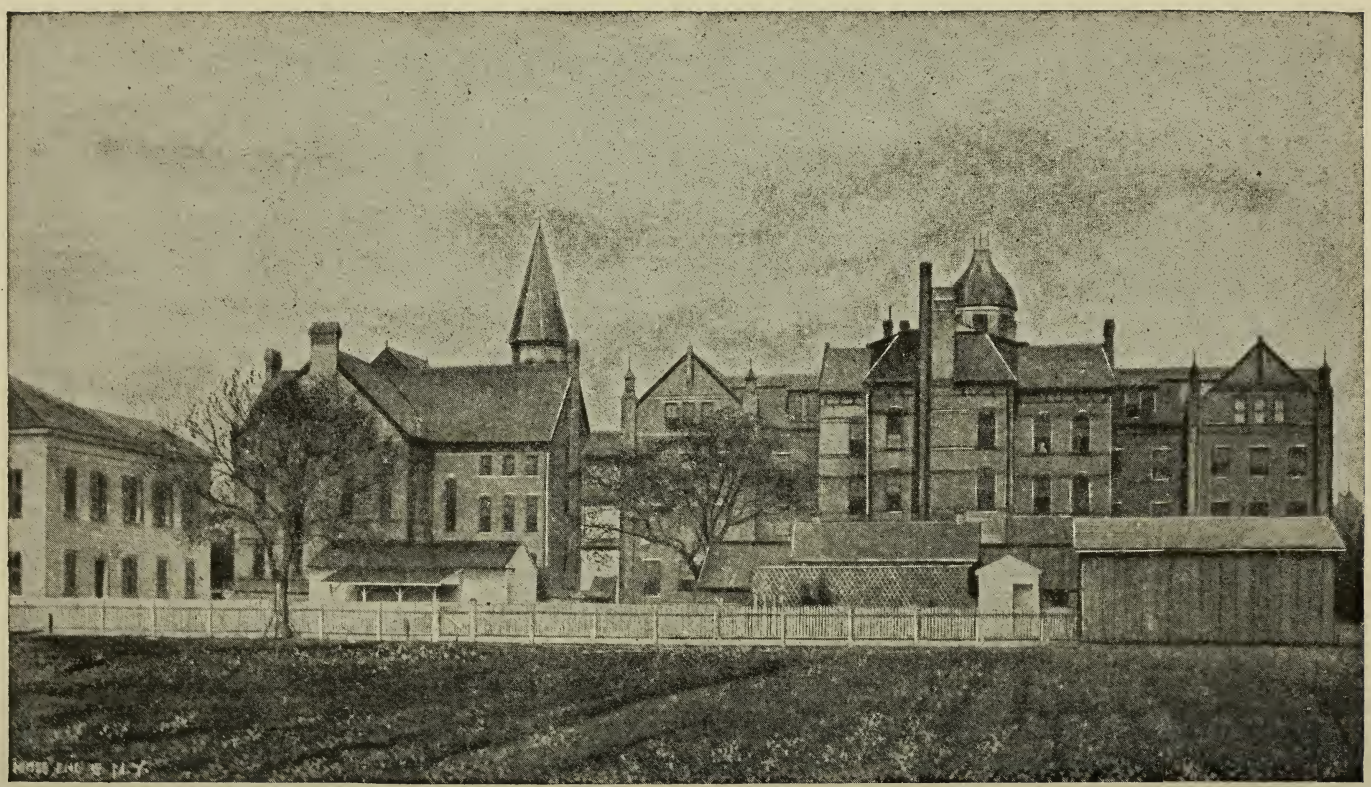

OLD STUDENTS.

Old students will not be re-examined to enter their former classes.

REDUCTIONS.

No deduction from music fees for absence of pupils less than two weeks. For all lessons, missed by absence of teachers, charges will be deducted, unless the lessons are made up.

No deduction will be made from board for an absence of less than five days.

BUILDINGS.

The Dormitory is a massive, strong, safe brick structure, three stories and a mansard high, 175 feet front, and running back 170 feet

It has a large, well arranged, well lighted and well ventilated dining-room, capacious kitchen for preparing the meals, washing room, ironing room, room for soap-making, boiler room, bath rooms, water closets, seventy-four well built and well ventilated rooms for sleeping, a parlor, and two large rooms as conveniently located as possible for the sick.

The bed rooms are neatly furnished, and accomodate 218 students:

Connected with this building by a covered passage is the Chapel building, which is three stories high, well and strongly built, and it has a large assembly room, President's office, Secretary's office, eight recitation rooms, chemical and physical laboratories and storage rooms, arranged with full regard to convenience, health, and efficient work.

These two buildings are covered with the best quality of tin shingles, and have some of the modern conveniences; they are warmed throughout by steam which is supplied to pipes by two large boilers which are operated upon the low pressure system. By this arrangement we avoid the danger arising from open grates, fireplace and stoves, as well as from defective flues; the labor of having to carry up coal to the various rooms and kindle a great number of fires is saved, and the annoyance of dust, ashes and soot in the rooms is avoided. The fires are made in the two large furnaces situated side by side in the same apartment under the boilers and the mains and pipes are connected with radiators situated in every apartment, and in the halls of the buildings; thus the whole interior of these buildings are brought even in the coldest weather, to a comfortable and healthy temperature.

The desirable character of this method of heating has been demonstrated during extremely cold weather, when the mercury went to two degrees below zero.

The Dormitory is supplied with hot and cold water for use in the kitchen, dining-room and bath rooms; both buildings are supplied with water by mains and pipes from the city water works; this is remarkably pure water from a very large and deep Artesian well.

The Dormitory and the Chapel are lighted with gas.

An easy running and safe elevator for baggage has been introduced into the Dormitory.

In the basement of the Dormitory there is a spacious Laundry and steam drying room. In the Laundry is a large Dolph Washer, steam tanks for rinsing, centrifugal extractor, steam bath for preparing starch, machine ironer. All the machinery is driven by a twelve-horse power engine. The steam drying-room has such a surface of pipes as to dry clothing in from five to fifteen minutes.

Adjacent to the Laundry is a small room devoted to soap-making, by which the refuse grease from the kitchen is utilized in making much of the soap that is needed in washing the clothing of the pupils. Next comes the rooms in which the starched clothing is ironed by hand.

The old frame building which was upon the ground when the property was transferred to the State was moved 160 feet in rear of the present brick Chapel, has been remodeled and improved and now has twenty-five rooms.

It is devoted to music, to painting, and industrial arts.

Steam, gas and water have been introduced into the frame building.

The dormitory has capacity for two hundred twenty-three lodgers and boarders.

The kitchen has a large John Van, Steel range, and two one hundred gallon circulating boilers, sink of hot and cold water, all needed closets, store-rooms, etc.

SITUATION.

Columbus is a town of 6,000 inhabitants, on the east bank of the Tombigbee river. It is beautifully situated, and is one of the handsomest and most healthful towns in the South. The land is undulating, natural drainage excellent, and the soil is porous. The streets are broad, well graded, graveled and shaded. The College is in the eastern part of town, and in full view of the Georgia Pacific Railway. A branch of the Mobile and Ohio Railway from Artesia terminates at Columbus.

NOTE.—The photographs from which all cuts in this Catalogue were made were the contributions of the firm of Messrs. Coulon and Garner, Photographic Artists, Columbus, Miss.

SOCIETIES.

For the purpose of literary improvement, to promote readiness and grace of expression and to encourage reading and composition, the students maintain two voluntary associations, the

CALLAWAY-ORR AND PEYTON SOCIETIES.

In addition to these we have

THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION,

THE Y. W. C. T. U., and

THE KING'S DAUGHTERS.

MEDAL.

A $25 Gold Medal is offered by SENATOR DILLARD, of Noxubee, to that member of the Phonography Class of 1891-1892, who will furnish the best type-written, Phonographic Report of some speech, sermon, or essay delivered during Commencement.
